

PACTO[®] for CUSTOMS

Toilet System

Simple and safe examination with Pacto[®] for Customs:

- Makes the general examination routine easy and effective
- Facilitates the legal submission of evidence
- Eliminates the risk of infection for the staff
- Secures hygienic handling of the waste
- Encapsulates the waste in a flush foil
- Requires no electricity, water or sewage
- Easy to install, to use and to move between different locations

Pacto® for Customs

PACTO FOR CUSTOMS is an effective, economic and hygienic method of fighting the spread of narcotics. Being encapsulated in a transparent polythene flush foil, the excrement can be examined in the most hygienic way. The lockable collection part eliminates the risk for the excrement being flushed down by the examined person.

The flush foil

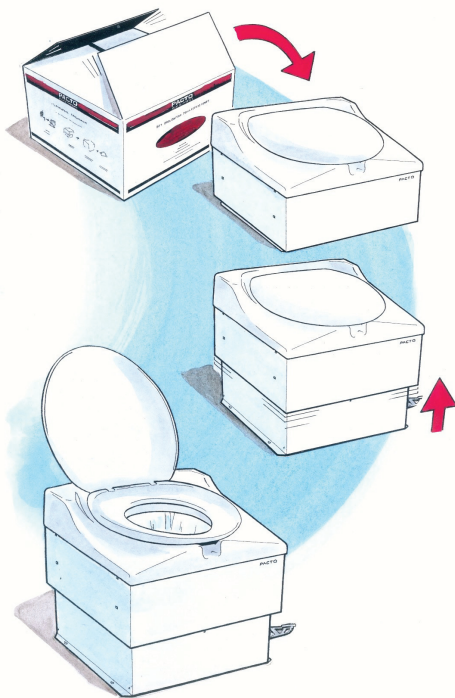

The flush foil is made of tough polythene to ensure that it does not break during transportation and examination of the waste. The flush foil can be incinerated after usage. Polythene is environmental friendly, since the only residues when incinerated are carbon dioxide and water.

Technical data

Colour:	White
Weight:	20 kg
Dimensions:	Depth 470 mm
	Width 530 mm
	Height 504 mm
